1. Hello to all new members!

Thank you for stopping by! My goal with this group is not to compete with all of the other scanner groups, but to have a group of scanner enthusiasts who have scanners with the "signal stalker" or "Close Call" technology.

I currently own a PRO-83 and have fun taking it everywhere I go to see what kind of frequencies I can find. Whether it is at Target, Walmart, or the shopping mall, I am usually entertained from what I hear. Most of the conversations are work-related, but a lot of the conversations are interesting - let's just say that sometimes the kids should not be listening! While driving, I also come across ham radio operators and listen in on the various topics.

If guests or members would like to leave comments, stories, or frequencies that they have found in this group, maybe we can create a reference or a database of frequencies that we all can use! I am looking forward to the future of this group!

3. Scanning with the PRO-83

I had a chance to play with the PRO-83 over the holidays, specifically with the signal stalker function. I did not take it to the mall, but listened in my vehicle traveling around metro Detroit. I picked up quite a few frequencies here and there, but they must have been birdies for there was never anything there. Many of them were in the 502 mhz range.

I did pick up ham operators and made me wonder how many ham radio enthusiasts were around me. It sounds like a lot because I picked up many conversations on the 147.140 frequency and from the conversations I heard, many of the people were using handheld radios. I picked up many of the conversations around Troy, and I am suspicious there may be a repeater antenna nearby.

Hello,

I am going to be purchasing either a BC92XLT or a Pro-83. When using the Close Call or Signal Stocker mode, can I save frequencies to memories which I have found in this mode? I noticed that the manual for the up and coming BCD396T mentioned saving to memory, but unless I overlooked it, I didn't see it mentioned in these other two scanners. Thank you.

Keith

Do we all agree work sucks? yes! i always hated working for rude bosses, long hours and low pay.
so one day i decided i would work for myself, i called this company and they set me up at home. all i do now is answer some phone calls for a few hours a day and watch the money roll in. life couldn't be better!

if anyone wants to get out of the rat race call them at 800 940 1731, just leave your details they will call you back.

I know some friends already who have met a few nice honeys off of this kind of stuff (here is the place they use: http://www.meetemhookup.info/cdyd , but what do you think? I think it is mad cool from what I saw at my friend?s house, and am thinking of signing up later today. Basically it's a regular personalssite, but with an instant message and Webcams system built in. Basically you join their chat-room on their site it gives you a link to those people online in the chat-room, their location, their picture, etc and at one click you can start chatting to them over Webcam (even if you don't have one). Pretty nifty stuff I think!

I see this a new group. I was hoping to learn more about close call tech. You should moderate and restrict members so they could actually talk about the subject instead of being overrun with spam. It works on other groups and spammers are booted down the street!

This campaign is about Human beings, Democracy, UNHCR, Refugees, The Iraqis, Islam, Kurds, Human rights, Respect, Money, Donations, Angelina Jolie, Pavarotti, Giorgio Armani, Donors, Peace, History, Campaigns and about you if you care about these words.

Hi there,

I am SAM, an Iraqi refugee living in Lebanon at the moment; I have spent the last 10 years of my life as a refugee registered with the UNHCR in Beirut. The last 4 years, I have spent as an activist for peace and human rights (especially refugees and asylum seekers) on the Internet; I'm also books author and ebooks publisher. I have launched many campaigns to improve our situation as refugees in Lebanon and hopefully bring more understanding to our problems worldwide. I helped make many changes and improvements at the UNHCR office in Beirut; I used the Internet as the field for my activities (you can read more about that in my free ebook 'MY CAMPAIGNS'). All my ebooks are free and could be download from my sites.

This is my newest campaign, it's about the illegal and humiliating actions of the UNHCR, who using photos of refugees as banners and human-buttons to collect money. This is an abuse of the dignity and humanity of the refugees and must stop immediately and a clear public apology present by The United Nations High Commissioner for Refugees. My friends, I am talking about the pictures you can see here:
http://unhcrlebanon.freewebpages.org/human-buttons.htm

Also you can read my new campaign 'Urgent, we need smile' here:
http://lebanon.aahubs.com/email_me.htm

For more info about UNHCR and life of refugees you can read my free ebooks. I invite you as fellow humans and members of the world community to support my campaign by reading my article on my site and see the human-buttons. The campaign is to support and improve the UNHCR http://www.unhcr.org especially after the last scandals in the UN and UNHCR, just for example: http://www.mizzima.com/archives/news-in-2005/news-in-april/12-April05-22.htm

"We make demonstration and fast because the UNHCR office in Cairo did nothing for our problem..." http://news.bbc.co.uk/2/hi/africa/4440730.stm

Together we will build better world.

You could reach me fast via this form: http://lebanon.s4u.org/email_me.htm
and if you like to know more about me, you can google for my name 'osam altaee'.

4 inches to your peniis with this amazing method.
This is not some scam to take your money and not
provide you with results but a very true honest way
to add 4 inches in no time. You owed it to yourself
to try it out you can find out the complete info here
http://www.carsce.com/vfrm I know there is a lot of peniis enlarging advertisements
going around on the internet but personally I have tried it myself
and I am very happy with the results please try it out and if you
are not satisfied you can get your money back..

The Nationally Accredited Reduce Your Bills Program!

As amazing as it may sound many people do not realize how easy it is to LEGALLY stop paying for their groceries! This is how the one hour television show began for the company whose website is at: http://expensecutting.com I thought it was very interesting and decided to check it out. I am very skeptical by nature so the first thing I did was check out the company. I contacted the Better Business Bureau and found that the company has had no complaints lodged against them, I also contacted Paypal who has verified this company. They told me that they verified the company's licenses, bank accounts and other paperwork indicating to them that the company is legitimate. Then I started asking co-workers and friends about this program and to my surprise 6 out of the 10 people that I spoke with were already using this program. They told me how pleased they were with it and how much money they had saved and are currently saving. So I decided to sign up for this program on 11/12/08. On 11/19/08 I received my complete membership package and the fun began. Using their sampler program and the free lifetime membership that it includes I went to the supermarket ready to make a killing. The cashier rang up my grocery bill and it came out to $239.87 then I put the program to work and I saved $223.38 - my final bill was only $16.49! The cashier wasn't the only one shocked. This program couldn't come at a better time with the way our economy is!!!

CONSUMER ALERT: Help For Anyone Drowning in Bills!

Like most Americans I could no longer sit back and wait and hope that our government will help us. I needed to put food on the table and pay my bills when they are due. I feel so fortunate to have been watching television when a one hour special came on for the program at http://penniesonthedollar.net It is basically a special unique program that allows you to almost instantly reduce all your expenses by a huge amount. I'm a very skeptical person so that first thing I did was call my father-in-law who works for the BBB in the Northeast. He used all his resources to check this company out and he said that they are legit and have been in business for 31 years. In fact, he told me that one of his coworkers is part of their sampler program for 12 years. So two weeks ago I signed up for their programs and just yesterday I did my grocery shopping and saved 74% on my bill using this wonderful program. I thought I should share this since most people are struggling to make ends meet right now.

Fw: A Program That Helps You Slash Your Expenses!

I have been the Senior Consumer Advocate Columnist for the past 31 years at a major Florida daily newspaper, I cannot mention the paper since I am not supposed to share my finding in a private setting such as this one. I have written hundreds if not thousands of articles on my findings in researching consumer related products and services. Through the years I have uncovered many great programs and many other scams. In fact I have uncovered several scams that led to the program operators being arrested. I had to take a moment to share with you my findings of the most recent program that I was assigned to cover and research. The program located at http://keepyourcashsite.com I followed the normal procedure of portraying myself as a regular customer. I signed up for this company's sampler program so that I could test all their products at once. Product by product I followed the directions which were very easy and put each program to the test. I was absolutely amazed to find that the company's products all received a rating of 5 with the exception of their Kodak film package which received a rating of 4.75. Our rating scale is based as follows: 1 being a total scam ... 5 being an ideal program that works as it is claimed to. The savings that are obtained with this program are absolutely spectacular! I also verified that this company has been in business since 1977 and they have an excellent record with the BBB. I am only taking the time because of the thousands of companies that I have reviewed this one is in the top 5.

ADVISORY: How to Beat Your Supermarkets Pricing!

As a mom of 3 I am desperate to save as much money as possible. As a cashier, I have the benefit of witnessing how people are able to save large amounts of money. I found out about the program at: http://supermarketloophole.com from several of my customers that have consistently been paying pennies on the dollar for their merchandise. I am chatty so I asked them striaght out how they do it and they all pointed me to this website. So I joined it and sure enough I have been paying next to nothing too. A great program to help you really stretch your money during these incredibly difficult times!

Thank you so much for these tips below. As Group Administrator it is my obligation to test claims that are made on my forum. When you shared your story with us I signed up for the programs you listed. I am happy to report that the programs work just like you said. I have saved substantial money already on my food bill. Thanks to the other two links you provided, I set up an account and I have been making money with no effort at all. Again, thank you!

Huge Help For Soaring Grocery Bills!
This was such an unexpected source of relief I am still crying whenever I think about it. My husband was recently laid off and needless to say that threw us into an immediate financial crisis. Here's where I unexpectedly found hope. Last Thursday I was walking to my car after finding out about my husband being laid off. I couldn't help but sob. A woman in the lot stopped me and asked if everything was okay. Not to burden anyone, I told her about my husband being laid off and left it at that. With that she reached in her pocket book and handed me a booklet and insisted that I take it. She told me that someone gave it to her when she was in financial trouble. She went on to say that she is no longer financially burdened and she wants to help me. With that she left and disappeared into the large lot. I got home and decided to try this program and sure enough, I was able to save $ 68.01 and only had to pay $12.20 for $80.21 worth of groceries for only $ 18.36! She must have been an angel. I am crying as I type this. This program is being offered at http://supermarketloophole.com I don't know what I would have done if I didn't meet that wonderful lady!

Hello Members,

After receiving several glowing recommendations for the sampler program at http://supermarketloophole.com I decided I had to test the program and last week I reported to you that the grocery savings part of the program does work and I might add is quite substantial in the amount you save. Today, I am reporting about the restaurant part of the program. Last night my family and I consisting of four people went to dine out at a chain restaurant and the total bill was only $ 12.26. We ate desserts, entrees and appetizers. It looks like this program is rapidly proving to be a gem! I will keep you posted.

Hi Again Members,

As promised to you I am currently thoroughly testing the sampler product that we have all heard so much about. The product is being offered at http://supermarketloophole.com
Thus far both the coupon and restaurant savings program have worked out great as I previously reported to you. Today my report is on their Online Wholesale Mall which I have been researching and recently used. The mall which is included in their sampler kit is broken down into approximately 20 categories including: Apparel, Auto, Computer, Electronics, Health, Beauty, Home, Garden, Jewelry, Sports, Telecom, Tools, Toys, Games, Etc. Etc. Each category is filled with name brand products. Every product with a picture shows the retail price and your wholesale price for that product. The prices are all at least 50% less than what the products are being sold for at discount stores such as Walmart. This is a private shopping site meaning that if you search the net for a product lets say a SONY TV you will get a list of the best prices and retailers for that product. However, since this mall is a private member only service it does not appear on internet searches. I bought that SONY TV from this mall for $ 327.00. The same model TV when I searched for the best price on the Internet came out with a store selling it for $ 529.00. The order went very smooth, I received UPS tracking information and I received my order within one week. The mall also has a great feature which isn't even advertised. Their As Seen on TV Superstore has every product ever featured on those late night infomercials all at wholesale prices. Yes, I am happy to report another gem of a program they have assembled.

Over the past several weeks I completely tested the sampler product being offered at http://supermarketloophole.com This product tested very well and thus I recommended it. The problem that I am having now is that I am receiving thousands of emails daily thanking me for my research, telling me how they have saved big money with this program and sending me scanned receipts of their actual savings. Please, no thanks is necessary, I don't need to say your scanned receipts, remember I investigated this program and have my own actual receipts. A couple of hundred others told me that this same program was the featured product at the Consumer Institute for Strategic Savings. My email keeps crashing please stop sending me emails. I am happy to have helped and happy that we all, including myself, have found a program that will make a huge difference in our finances.

I don't have to tell anyone how difficult times are. I work between 60 and 70 hours per week as a cashier in a grocery store just so I can put food on the table for my kids. No one is witnessing the constant increase in grocery prices more than me. I see the same products selling at higher and higher prices every week. I see regular customers buying less and less because they can't afford what they always bought in the past. But I also have taken notice of several people that are coming to my register with overflowing carts and paying next to nothing. It is amazing to me how these people walk out of the store with overflowing carts and they are paying less than people who are buying three of four items. I started asking them how they do it and all of them are members of this program at http://newdealsdirect.com A few of them explained that they saw television shows for this company. Needless to say I couldn't wait to sign up either, I joined their sampler program which offers savings on a vast array of items not just groceries and wow has this helped. I sincerely hope that this will help other struggling people.

I recently read a recommendation here for the sampler kit being offered at http://expenseeliminator.com I asked my dad who works for the Better Business Bureau to check out the company. He said that the company has been around since 1977 and has an excellent record with the BBB. He also found out that one of his

I decided to sign up for this program too. Last night I went shopping and thanks to this savings package I purchased a full shopping cart of groceries and merchandise and saved 68% on the total bill! Thought I would share this amazing experience with the group.

The Free Grocery Loophole Works!

If you are looking to slash all your expenses by 75% then you found the right place! This is how the television show began. The company has a website at http://supermarketloophole.com I thought it was very interesting and decided to check it out. I am very skeptical by nature so the first thing I did was check out the company. On 3/15/09 I received my complete membership package and the fun began. Using their program and the free lifetime membership that it includes I went to the supermarket ready to make a killing. The cashier rang up my grocery bill and it came out to $239.87 then I presented her with the coupons I received from this program and I saved $223.38 - my final bill was only 16.49! The cashier wasn't the only one shocked!

After having read so many different people who are sharing their praise and stories about the program being offered at http://groceriesclub.com and decided to share my very own experience with this progam. Back in 1999 I was bringing my oldest son Andy to Gymboree. One day when we arrived there was a large group of moms gathered around a shoebox on top of a table. I still remember hearing words like WOW and Oh my God. I went right over to see what was going on. One of the moms had a shoebox full of grocery store and department store receipts. The receipts were all showing huge savings. I still remember there was another mom there with her laptop. We all took turns signing up for the sampler that very morning. Through the years this program has been far more than I could have ever hoped for. The savings on just about everything continue to be incredible!

On at least 10 occasions the reporter saved in excess of 82% on groceries and dining out. On 19 occasions he saved 78% - 82% and on 38 occasions saved between 76% - 81%. The reports concludes that in a single word this program is remarkable.

Re: The Website Your Grocery Store Hopes You Never Find!

The simple fact of the matter is that I worked for two major supermarket chains, one of which I was fired at because management overheard me telling people about the programs at http://paymuchless.net I found out about this website because I noticed a handful of regular customers saving between 75% - 80% on all their groceries everytime they shopped. I started asking them how they do it and they are all members of the program at the site I mentioned. I figured let me help others in these difficult times by sharing this information with them and that is how I got fired. I started working at a different chain where my friend works and she told me not to tell anyone there since someone was suspended for mentioning this program. I guess the supermarkets feel that they are giving away their products to people that are smart enough to use this program. Oh I joined their sampler program and the savings are out of this world.

The Free Grocery Program Works!

As I sat there I thought that one of two things must be happening, either I am dreaming or I have lost my mind because I simply could not believe what my eyes were showing me! Yet since I was watching this whole thing unfold on a one hour television show I knew it must be for real. The company's program that I am referring to can be found at: http://savingmorethanbefore.com I thought it was incredibly interesting and decided to research it entirely. I am very skeptical by nature so the first thing I did was check out the company. I contacted the Better Business Bureau and found that the company has had no complaints lodged against them, I also contacted Paypal who has verified this company. They told me that they verified the company's licenses, bank accounts and other paperwork indicating to them that the company is legitimate. I also found out that they have been around for more than 32 years. Then I started asking co-workers and friends about this program and to my surprise most of the people I spoke with either knew about the company or are active members of it. The ones that are members all told me how pleased they are with it and how much money they had saved and are currently saving. So I decided to sign up for their sampler (which offers one of every product they carry) program on 4/11/09. On 4/18/09 I received my complete membership package and the fun began. Using their program and the free lifetime membership that it includes I went to the supermarket ready to make a killing. I bought everything I could imagine in fact the cart was overflowing! The cashier rang up my grocery bill and it came out to $276.40 then I presented her with the coupons I received from this program and I saved $257.91 - my final bill was only $18.49! The cashier wasn't the only one stunned. This program has changed my life for the better!

I had to take a moment to share this amazing program that was recommended by several moderators from other groups. The sampler program that is located at http://unitedstatesdiscounts.com is unquestionably the greatest system for saving large amounts of money of your daily expenses. Shortly after signing up for this program my television news program even ran a story on how effective this program is. During these times of soaring costs this is the greatest weapon we as consumers have!

I am so excited! The nationally famous savings system since 1977 is now also being offered as an affiliate program. These products have been seen on TV, newspapers, featured on nationwide news programs and have been accredited by a number of organizations. Now you can be an affiliate for their entire line. Go to their website at http://savingmorethanbefore.com and click on the link on the left side called affiliates. I also tried their products and with the sampler the savings are nothing short of amazing. Just today I received $278.49 worth of merchandise and only had to pay $20.06! Great product and great affiliate program paying 20% commissions across the board.

If my life was on the line I could have never imagined that a program such as this exists! I really hope that the lady that recommended the sampler program at http://supermarketloophole.com sees this posting. I want to thank you from the bottom of my heart. Times were so desperate for us. The thought of being able to feed our family was getting ever more stressful. Thanks to your recommendation we joined this program and the savings were everything you said and much more! Last night we bought over $ 250.00 worth of groceries and merchandise and only had to pay $22.36! I think her name was Lisa or Lori anyway thank you so much for taking the time to share this program it has made a huge difference in our lives!

Debbie, you are so correct, I had the same feelings about the program below that you did and I never intended to join it. Then my brother gave it to me as a gift and I used it and it is amazing. I am saving a fortune using their sampler program!

<original post follows by Debbie Spears>

I must admit when I first read the glowing post about the programs being offered at http://expenseloophole.com I was convinced that the whole thing was a scam. Then this past weekend we took a trip to my cousin's home. It was a large out of
state reunion. I offered to assist Jean (my cousin) to the grocery store. She was buying everything in sight. I thought she lost her mind. When all was said and done and her order was rung up it totalled $ 678.89 then suddenly the cashier told her $ 38.16. I thought I was hearing things until my cousin gave her two twenties and received her change. In the lot I asked her what just happened and much to my amazement she told me she gets these savings through this same program above that I thought was a scam. Wow! I borrowed her computer when we got back to her home so I could sign up. I have never seen anything like
this before!

RE: The Website Your Supermarket Is Hiding From You!
Not long ago someone wrote about the programs, specifically the sampler program, that is offered at http://grocerystrategy.com and how the supermarkets don't want you to know about this program. Well I just retired as a regional vice president for a major supermarket chain across the southeast. In fact, I was responsible for this chains supermarkets throughout 8 states. Yes, it is true we
don't want you to know about these programs because we don't want people leaving our stores with overflowing carts and paying next to nothing for the items. The
only reason I am admitting this at this time is because I am retired and I feel
guilty knowing something that could help so many people and hiding it from them.
I have been using this program for the past 25 years and it is sensational.

Quite honestly I believed they were spam and that is why I deleted them. Last night I was at my cousins home and she was telling me that it is possible to stock up on free groceries and merchandise for almost nothing. After I stopped laughing she took a shoebox out of her closet that was full of receipts. The savings on these receipts were eye popping. Savings between 75% - 85%! I was even more shocked to find out that the program she is using is the same one that I mentioned above. Sorry members for deleting the previous posts. I am now a member also after seeing her savings.

A HUGE HELP FOR SOARING BILLS!
This was such an unexpected source of relief I am still crying whenever I think about it. My husband was recently laid off and needless to say that threw us into an immediate financial crisis. Here's where I unexpectedly found hope. Last Thursday I was walking to my car after finding out about my husband being laid off. I couldn't help but sob. A woman in the lot stopped me and asked if everything was okay. Not to burden anyone, I told her about my husband being laid off and left it at that. With that she reached in her pocket book and handed me a booklet and insisted that I take it. She told me that someone gave it to her when she was in financial trouble. She went on to say that she is no longer financially burdened and she wants to help me. With that she left and disappeared into the large lot. I got home and decided to try this program and sure enough, I was able to save $ 68.01 and only had to pay $12.20 for $80.21 worth of groceries for only $ 18.36! She must have been an angel. I am crying as I type this. This program is being offered at http://savingmorethanbefore.com I don't know what I would have done if I didn't meet that wonderful lady!

When I first began seeing posts about how great the programs are at http://savingmorethanbefore.com I knew I had to do my research. 37 different people have posted on this group telling us the fortunes that they saved using these programs. The first thing I did using computer tracking technology was to verify that these people weren't the same person using different names. The 37 people were all different coming from 29 different states. 5 others came from different parts of the same state. So I decided to put this program to the test and ordered the sampler. As you now know the rest is history. I saved and am saving a fortune using this wonderful program. So please don't thank me, as your moderator I was only doing my job.

Many of them have even sent me scanned images of their receipts. One especially stood out. Sally R. from Akron, OH sent me her receipt showing that she bought $ 189 worth of groceries and non food merchandise her final balance was minus $2.41 meaning the store owed her! Wow - I must ask now that people stop sending me their thanks since my inbox is out of control.

Both the grocery and restaurant books are continuing to save me substantial amounts of money and I have already made several purchases from the Online Wholesale Mall where I have been receiving brand new name brand products for less than anywhere else. Also I want to briefly mention another program they have that is great. Their information mall has anything and everything you can imagine. You're Getting Overcharged At The Grocery Store!
Unfortunately, I am in the same situation as millions of Americans. I have two credit cards completely maxed out one other 3/4 maxed out, I can't understand why every time I go to the supermarket (twice a week) the prices on everything keeps going up 40 cents at a time, I dread to open my utility bills, I am afraid to check my cars gas gauge and the thought of putting the heat on in the house send shivers down my spine. Yes, these are the worst times I ever recall in my life. Knowing that so many of you are in the same situation provides no comfort either. Three weeks ago my mom gave me the sampler program from a company at http://unitedstatesdiscounts.com and this has really helped me significantly. It has helped to eliminate the price increases on many things and in most instances I am paying less for food and merchandise than I did 10 years ago. It has taken away so much stress from life. I hope that my message will help others out of this very difficult time.

Your moderator recently discussed the research that they did and their subsequent recommendation of the programs being offered at http://savingmorethanbefore.com As a result of this posting we have received hundreds of inquiries both about the moderator and the programs. We have verified that that message did indeed come from your moderator. As far as the programs and the business we have verified that all their business paperwork is filed and up to date. We have also verified that they have been in business since October 1977 and in that time they have had a total of 2 consumer complaints both of which was rectified to the consumers satisfaction. We have also verified that they have served in excess of 675,000 people throughout the 50 states. The moderator has forwarded receipts to us showing savings in the following amounts: 83%, 72%, 91% and 88%. We therefore conclude that the program is legitimate and the research done by your moderator is accurate.

Re: The Free Grocery Supermarket Loophole!

Two weeks ago a woman named Kim told us how great the savings are at http://savingmorethanbefore.com Well I have three kids so I am willing to try anything to cut costs. I will admit that I was pretty skeptical but joined anyway. My kit arrived within 5 days and I just tried it out. I went shopping for Thanksgiving and the savings are tremendous. I saved 78% off my entire Thanksgiving grocery bill. Thanks Kim for sharing this site with us!

In a recent an email that I received in response to my recommendation of the money saving programs at http://savingmorethanbefore.com I received a letter I believe will change my life forever. Mrs. Anne S. from DesMoines, IA wrote me the following:

Dear Moderator,

Although I do not personally know you I recently put all my trust in your word. My husband recently died in a tragic accident leaving me and my two toddler sons alone. Every night I sat and cried wondering and praying to be able to care and feed my children. Your email about the programs at http://savingmorethanbefore.com
was a true blessing. I gathered whatever change I could find and joined their program and the savings have been even greater than what you told us. Thanks to this wonderful program not only am I able to keep feeding my kids but we actually can afford a Thanksgiving dinner this year! God Bless you!

I was helping my Aunt get her Thanksgiving groceries late last night. What
I
witnessed was truly amazing. She had 19 people over today so she needed a ton
of
groceries. In fact she needed one full cart and a half of another full cart.
The
items rang up to $457.79 (I saved her receipt)but yet she only had to pay
$30.03. Both the cashier and I were stunned. Afterwards she told me that she
uses the program at http://spendlessclub.com and that she gets similar
savings every time she shops. So as soon as I could get to my PC I went to
join
the program too. I found out that they are running a bunch of great Black Friday
specials today.

Many of you have asked me how I first found out about the amazing grocery savings program I always recommend. So I decided to share my story with all of you. Back in 1999 I was bringing my oldest son Andy to Gymboree. One day when we arrived there was a large group of moms gathered around a shoebox on top of a table. I still remember hearing the moms shout WOW. I went right over to see what was going on. One of the moms had a shoebox full of grocery store and department store receipts. The receipts were all showing huge savings. Kristen, the mom with the shoebox, told us that she is a member of the sampler program that is offered at http://savingmorethanbefore.com As soon as I got home that day I signed up for the program and the savings have been amazing ever since.

I wish all our group members a happy and safe holiday season!

This was such an unexpected source of relief I am still crying whenever I think about it. My husband was recently laid off and needless to say that threw us into an immediate financial crisis. Here's where I unexpectedly found hope. Last
Thursday I was walking to my car after finding out about my husband being laid off. I couldn't help but sob. A woman in the lot stopped me and asked if everything was okay. Not to burden anyone, I told her about my husband being laid off and left it at that. With that she reached in her pocket book and handed me a booklet and insisted that I take it. She told me that someone gave it to her when she was in financial trouble. She went on to say that she is no
longer financially burdened and she wants to help me. With that she left and disappeared into the large lot. I got home and decided to try this program and
sure enough, I was able to save $ 68.01 and only had to pay $12.20 for $80.21 worth of groceries for only $ 18.36! She must have been an angel. I am crying as

I must admit when I first read the glowing post about the programs being offered at http://expenseloophole.com I was convinced that the whole thing was a scam. Then this past weekend we took a trip to my cousin's home. It was a large out of state reunion. I offered to assist Jean (my cousin) to the grocery store. She was buying everything in sight. I thought she lost her mind. When all was said and done and her order was rung up it totalled $ 678.89 then suddenly the cashier told her $ 38.16. I thought I was hearing things until my cousin gave her two twenties and received her change. In the lot I asked her what just happened and much to my amazement she told me she gets these savings through this same program above that I thought was a scam. Wow! I borrowed her computer when we got back to her home so I could sign up. I have never seen anything like this before!

Re: AS SEEN ON TV - LEGALLY Stop Paying For Groceries!
As amazing as it may sound many people do not realize how easy it is
to LEGALLY stop paying for their groceries! This is how the one hour
television show began for the company whose website is at:
http://grocerydeal.net I thought it was very interesting and decided to check
it
out. I am very skeptical by nature so the first thing I did was check out the
company. I contacted the Better Business Bureau and found that the company
has
had no complaints lodged against them, I also contacted Paypal who has verified
this company. They told me that they verified the company's licenses, bank
accounts and other paperwork indicating to them that the company is legitimate.
Then I started asking co-workers and friends about this program and to my
surprise 6 out of the 10 people that I spoke with were already using this
program. They told me how pleased they were with it and how much money they
had
saved and are currently saving. So I decided to sign up for this sampler program
on 12/19/09. On 12/26/09 I received my complete membership package and the
fun
began. Using their program and the free lifetime membership that it includes
I
went to the supermarket ready to make a killing. The cashier rang up my grocery
bill and it came out to $239.87 then I presented her with the coupons I received
from this program and I saved $223.38 - my final bill was only $16.49! The
cashier wasn't the only one shocked. This program has changed my life!!!

I still remember signing up for it while I was watching the report. I signed up for the Sampler program which is their most comprehensive savings package. Not only does it give you great grocery savings as we heard yesterday but it also includes programs for great dining out discounts, access to name brand products for pennies on the dollar and free film and discounted developing through Kodak. Every person that I know that has witnessed my savings are now members of this program.

Andrea there is no need to thank me for the recommendation I made for the sampler kit being offered at http://groceryloophole.com I have been moderating groups and clubs for the past 15 years. I currently moderate 89 groups. It is sad how some people moderate groups and never even monitor them. As your moderator I feel I have an obligation to all of you and I would never recommend anything that I don't personally use. I have been using this particular program for more than 20 years and I have saved a fortune with it. This is the reason I have recommended it to my group members. So please don't feel like you must thank me, I am glad to have the opportunity to help all of you.

At the recommendation of a couple of moms here on the boards, I recently signed up for the sampler kit being offered at: http://groceryloophole.com Last night was the first time I used this program and I am so excited that I signed up. I went to the supermarket last night and filled a grocery cart to the top. I bought groceries, baby items, toiletries and over the counter meds. I was a bit nervous thinking about how many items I was taking up tot he cashier. In all the order rang up to $ 447.79 but thanks to this truly amazing program I only had to pay $ 40.09! I hope the moms that originally recommended this see my post I wish I could hug you! Thanks so much for sharing this tip with us!

I have never seen anything catch on quicker than this program. All I am hearing about at relatives homes, work, all over the internet and now on television is the program at http://grocerydeal.net Being a professional researcher I decided to do some homework and find out about this program and behind the scenes of this program. The company who is a registered business since 1977 has been developing programs to assist people in saving money in all aspects of their life for the past 33 years. Paypal has reviewed their documents and offers a guarantee for their products. Evidentally the company has developed/refined the programs that they have been researching and have come up with what is supposed to be the all inclusive savings program which allows you to make drastic savings with your grocery orders (between 60% - 70%) and receive substantial savings when you dine out as well. I allo checked them out with the BBB where dating back to the beginning they have only had 2 complaints filed and both of those complaints were immediately resolved to the customers satisfaction. It appears that the company has served in excess of 565,000 customers over that stretch of time.
So I decided to join and check the program out and this is how I realized why this thing is spreading like fire. It took about 7 days for me to receive my sampler package in the mail and ever since becoming a member some 4 months ago, I have been saving more money at the supermarket than I could have ever imagined. I am literally
paying pennies on the dollar for everything. This certainly is the most effective program I have ever researched!

When I read the recommendation posts for the products offered at
http://nofullprices.net I was absolutely convinced it was a scam. So convinced
that when my aunt sent me their sampler kit as a birthday gift I threw it out.
What I didn't realize is that my husband Bob took it out of the trash and used
it. He came home last night with about two dozen full grocery bags and showed
me
the receipt from the store. All he had to pay was $ 16.89! He saved 82% on
the
entire order. When I asked him how he managed that, he admiited to me that
he
took the program out of the trash and tried it. I am so grateful he did. I
never
realized it was possible to save so much money.

So many of you have been asking me how I first found out about the sampler program at http://nofullprices.net I decided to tell all of you. In 1983 I was hosting a very large family reunion at my home. My cousin Loraine agreed to help me with the grocery shopping. She lives in another state and came a day early. When we went shopping she was throwing everything she saw into the cart. I remember I kept telling her to take it easy and she kept telling me don't worry about it. By time we checked out the bill rung up to $637.79 (I still have the receipt). But yet we only had to pay $ 86.69! She was using this very great program listed above. It was that day that I joined and have had these great savings ever since.

293. America's Number 1 Savings Program on Martha Stewert

I finally joined the savings program at http://nofullprices.net last week.
To be very honest I was sure the whole thing was a scam. But so many people
recommended it so highly that I called my friend whose husband works for the
BBB. He did all the leg work for me and checked out the company and its paperwork.
He verified that the company has been in business since October 15, 1977 and
that all their business licenses and records are in order. He also told me
that they have had next to no complaints in all the years they have been in
business. This is what convinced me that it would be okay to join and join
I did. The savings were big and immediate. I saved over 82% on my first grocery
bill! Then just yesterday I saw this very same program featured on Martha Stewert.
I feel that this may end up in every home just like the TV and radio. Great
program it changed me from a major skeptic to a huge fan!

Thanks so much for the tip you shared below. I signed up and the savings are just what you said Amazing!

[original post]

As amazing as it may sound many people do not realize how easy it is to LEGALLY stop paying for their groceries! This is how the one hour television show began for the company whose website is at: http://nofullprices.net I thought it was very interesting and decided to check it out. I am very skeptical by nature so the first thing I did was check out the company. I contacted the Better Business Bureau and found that the company has had no complaints lodged against them, I also contacted Paypal who has verified this company. They told me that they verified the company's licenses, bank accounts and other paperwork indicating to them that the company is legitimate. Then I started asking co-workers and friends about this program and to my surprise 6 out of the 10 people that I spoke with were already using this program. They told me how pleased they were with it and how much money they had saved and are currently saving. So I decided to sign up for this sampler program on 5/10/10. On 5/17/10 I received my complete membership package and the fun began. Using their program and the free lifetime membership that it includes I went to the supermarket ready to make a killing. The cashier rang up my grocery bill and it came out to $239.87 then I presented her with the coupons I received from this program and I saved $223.38 - my final bill was only $16.49! The cashier wasn't the only one shocked. This program has changed my life!!!

I am so excited about this I have to share it! Last week at Gymboree, one of the mothers had a shoebox full of receipts. The receipts were all showing supermarket savings between 70% - 85%. She explained that she joined a program at http://settingurownprice.com and that is how she is saving so much money. I asked my husband Ralph who works for the BBB to check out the company and he told me that they have a great record so I signed up too. Last night we went grocery shopping and I filled our shopping cart in all the bill rang up $ 197.79 but thanks to this program I only had to pay $16.63! This is why I am so excited. My mom always taught me to share good things with others and that is why I am sharing this here!

I must admit I was completely wrong. When I read all the posts from different people about the program at http://settingurownprice.com I would have bet my life that it was nothing but spam. However, this past Friday one of my co workers was telling us about how much money she saves using, as it turns out, this very same program. She even showed us her most recent receipt which showed a savings of 81% on her entire bill.

You may recall that I recently blasted and banned a member that posted about her huge savings using the programs at http://nofullprices.net I was convinced it was spam and immediately banned her. Well, last night my sister who lives in California called me to tell me about this amazing program she joined and she went on to tell me that the first time she used it she saved $ 103.89 on her grocery bill. She only had to pay $ 10.98. You can imagine how stunned I was to find out that the program she joined is the same one listed above that I thought was spam. Now I feel like hell having banned that woman for sharing a legitimate tip.

The program has withstood the tests and offered the investigators ongoing savings averaging 72% on all their bills. As the Regional Manager of 36 supermarkets in the Southeast US, I have heard many great things about these programs but to have a full presentation at out convention was quite amazing.

Yesterday, at my Mommy and Me class one of the moms shared a great tip and find with the rest of us. She was telling us how she had joined the programs at http://grocerypricefreeze.com after watching a half hour television show for it. She had brought in a shoebox full of receipts showing us how much money she was saving with this program. I have to say the savings were eye popping. I looked at a least two dozen receipts and the smallest savings I saw was 69% and this is off her entire bill. She told me she has friends and family all over the United States and they have all joined too. The second I got home I signed up as well. Thought I would share this with other moms as we all know the need for savings!

Let me start by saying I am truly sorry. For the past 18 years I was employed by Consumer Systems of North America. They arethe parent company to 26 consumer savings related companies. I was employed along with 89 other full time employees and our sole mission was to search the internet for any postings about World Products Inc. located at http://savingmorethanbefore.com and we were told to create false names and make posts about how World Products is a fake company, that all the people recommending that company were spammers and that their products were no good and don't work. This past Friday I was laid off because Consumer Systems can longer make their Payroll. The fact is that World Products devasted our company. They actually put 22 of our sister companies out of business. Even more ironic is that we had a small army of people working full time posting about what a fraud World Products is and at the very same time we were all members using their programs to save money. Even the President of Concumer Systems was using their programs. Why am I confessing now - because I am very angry that I was laid off. I spent 18 years of my life falsely telling people not to join the programs at http://savingmorethanbefore.com I feel real guilty now and don't even want to think about some of the people that were financially ruined because of me. I am truly sorry.

- 80%
on most of her daily expenses. I began mentioning this program to other patients
and several others told me they were members also with very similar savings.
So
I signed up for their sampler program and received it last week. Low and behold
last night I went grocery shopping and had a full cart of groceries, toiletries,
over the counter meds and cleaning products. In all the bill rang up to $ 197.79
but thanks to this program I only had to pay
$ 26.63.

Although I had no intention of mentioning the amazing program that I told you about at http://spend-no-more.com I must add just one final word. Yesterday I received a FedEx package from my cousin Anne in California who I convinced to join this sampler program last year. Like the rest of us she had been saving between 60% - 80% on all her everyday needs. Inside this FedEx envelope was a supermarket receipt that had a negative number as the total. She came up with a way to actually get the whole thing for free (this receipt had $ 147.79 worth of products) and the store owed her $ 2.47. In her note she said that they apologized but couldn't give her money. So she had to settle for $ 147.79 of free products. Just amazing! Have a great weekend everyone.

In 1983 I was hosting a very large family reunion at my home. My cousin Loraine agreed to help me with the grocery shopping. She lives in another state and came a day early. When we went shopping she was throwing everything she saw into the cart. I remember I kept telling her to take it easy and she kept telling me don't worry about it. By time we checked out the bill rung up to $637.79 (I still have the receipt). But yet we only had to pay $ 86.69! She was using this very great program listed above. It was that day that I joined and have had these great savings ever since.

At their October 7, 2010 meeting they have endorsed the programs at http://powerofdiscounts.com citing that in " these extremely difficult times, this company has researched and developed programs that greatly assist the general public in saving money. They serve in excess of 437,000 customers who have cumulatively saved $ 46,238,982.30 as of the quarter ending 8/31/2010. These figures were independently audited by Haskins and Hodge Public Accountants".

As one of the world's greatest pessimists there are very few things that wow me. A couple of weeks ago I saw a one hour television show for a company that offers a comprehensive plan where you can save on virtually everything and anything you buy and also allows you to earn money while saving. It looked too good to be true. Then last week my friend Lisa was over and I asked her if she ever saw the show - she was startled and said that she has been part of the program for several years. She told me she signed up for their sampler kit back in 1992 and ever since has been using all the products that came in that kit. She went on to say that the savings have been greater than anything she ever witnessed. She said just this past Thanksgiving she was able to buy food for a party that she threw for 17 people and only had to pay $12.00. I joined the program that evening and just received my sampler kit which I will start using in the next couple of days. I am sharing this because we all face the same problems soaring costs for everything - as we approach this season of giving I feel that this is my good deed. The company website is located at http://spend-no-more.com

Happy Holidays!

Hey Cuz,

I just wanted to share my own opinion and experiences about the program that

have been a cashier at Publix Supermarket for 17 years. In those years I have

saving between 65% - 85% off her entire bill every week. After a month I got

As the years went by more and more people were saving huge amounts of money

After receiving several thousand inquiries regarding posting recommendations for the programs found at http://discounts4food.com we assembled a research team and a testing team. The research team's goal was to verify that the company is a legitimate one and that they have been in business for the number of years stated (33 years). The research team was able to verify this inofmation so we then put the testing team into operation. The testing team consisted of 78 people throughout the 50 states whose goal was to field test the products to see that the savings claims were accurate. Having been able to substantiate the savings claims we have permitted the recommendations to go forward.

Stretching Your Grocery Budget!
This Christmas my cousin Sue gave me a booklet used for savings. I must admit my
first thought was what a cheap gift LOL. Anyway last night we needed some groceries so my husband Jimmy and I figured we would try this program. We normally spend about $ 70 - $ 80 picking up some basic food necessities before we do our major shopping for the week. So we picked up the same items we always do but to both of our surprises using this program it only cost us $ 16 for the
same products, brands and quantities that always cost us in the mid $70s. I called her and thanked her tremendously. I also asked her where she found this so that I can tell other family members and friends. She said that the program is found at http://grocerypriceslash.com Now we can't wait to try the restaurant program next!

A forecast of a 35% spike in grocery prices is expected over the following 90 days. This drastic increase in across the board prices is symptomatic of a pattern of uncharacteristic climate and meterological disturbances throughout the 48 contingous states. Geographically unusual cold temperatures have destoyed substantial amounts of crops. This coupled with an ongoing increase in fuel prices have resulted in this upcoming cost increase. Further projections are indicating an additional 40% increase outward towards the end of 2011.

Members, I am as troubled to read this as I am to share it with all of you. While it is not my intention to scare anyone, I want everyome to plan accordingly and be prepared. I can only reiterate my utter happiness with the programs at http://discounts4food.com This program continues to offer savings in the 60% -70% range. This will really help to offset the increase in food prices, which by the way I am already noticing.

I was overwhelmed yesterday after sharing with you my recommendation for the programs at http://savingmorethanbefore.com I received hundreds of emails from people who are already in this program and they were all sharing their great savings stories. Bill W from New Jersey sent me an attachment of his receipt showing a 92% savings, Sara L from Florida sent hers showing 86% off and dozens of others attached theirs showing savings between 70% - 77%. But I did forget something and many of you reminded me of it. I forgot to mention that the company also has a way for you to earn money. Just click I believe the link is called Earn Cash on their website. In fact Jane T from Washington attached a copy of her commision check which was for $980.00. Thanks to all for sharing this and thanks to those that reminded me about the earn cash opportunity!

Jenny, please don't thank me for my recent recommendation of the program at http://discounts4food.com One of the responsibilities of an Administrative Moderator is to provide Group Moderators and group members of critical information. That is why I shared with you the government projection of increasing grocery prices over the next year. I like to take it a step further and provide when possible alternatives that allow you to survive the problems listed. Having used this program for a dozen years I felt it is a great way to beat the upcoming prices increases and as you pointed out to me you already saved $ 246.37 on your first grocery trip.

Dr. Fisher your assessment of the programs at http://grocerypriceslash.com are absolutely correct. Last year my publication conducted an extensive review and research of their products and claims. Our findings indicated that this program does indeed save consumers incredible amounts of money across a wide spectrum of products both food and non food. Since that study was concluded we have placed this program on our top 5 highly recommended programs where it remains today.

I have read numerous endorsements and seen several television shows for the company located at http://grocerypriceslash.combut for me seeing was the only way of believing. Well that happened last week. I was at the supermarket with my sister-in-law and she was pulling everything you could imagine off the shelves. Some stuff she said she would never use but since she was getting it for free she would pick it up. I thought she was losing her mind. At checkout, her bill went from $379.94 down to only $16.33. I thought I was seeing things even the cashier's mouth dropped. She told me that she has been part of this program, which is the same one I was reading about above, for several years and that her savings keep getting larger and larger. Needless to say as soon as I got home I signed up for their sampler special and just received my full kit this morning. I can't wait to get started with these savings.

This refers to the same program I am a member of and I recently recommended to everyone. You see Miranda, I told you I would never recommend anything that I didn't test first hand. Here's Miranda's email:

As Seen in The Ladies Home Journal!

I recently read about the very popular savings system that is being offered at http://discounts4food.com According to the article in The Ladies Home Journal the system is currently being used in over 4,000,000 homes throughout the USA . I signed up last week and my husband Jim and I used the grocery part of this sampler kit last night for the first time. We did our usual weekly shopping which always costs us in the $ 180 - $ 200 range. We purchased what we always do but because of this program the bill was only $ 28.86! We were absolutely stunned at the savings. So we went back home unpacked the groceries and decided to try out the restaurant part of the program. We were able to eat at one of the chain restaurants and saved 50% off the entire bill. All I can say is this is a Great Program!

Yes, Karen I had signed up for the sampler package at http://discounts4food.com
. They don't have it advertised as a special but it is actually cheaper to
sign up for that than their current specials. I have used all the different
programs it includes with great success. I already shared with all the members
the great grocery savings but I didn't mention the amazing savings at the restaurants.
Jimmy and I have been eating out 4 times a week using this program at different
restaurants. Everytime we are saving a minimum of 50%. The wholesale mall is
also unbeatable. I have compared their prices for different items against many
of the internet's price comparison websites and their prices are consistently
lower. This is why as the moderator I have endorsed this product so highly.

The final results have been verified and the three people listed below have won the top three prizes. All contestants were using the program at http://savingmorethanbefore.com
They had to send their actual register receipts via certified mail. Those receipts were then verified by the individual food stores. First prize is a $ 500 Walmart gift certificate. Second prize is a $ 250 Walmart certificate and third prize is a $ 100 Walmart gift certificate.

1st Place Susan Richards Houston Texas saved 99.6% or $197.73

2nd Place Mary Beth Stevens Oahu, Hawaii saved 99.1% or $ 190.01

3rd Place Beth Johnson Bangor, Maine saved 89.4% or $ 165.56

64 others were tied at 89.2%

These were savings reflected on a single grocery shopping trip. Congratulations to all. I willlet you know if and when they run another contest.

As amazing as it may sound many people do not realize how easy it is to LEGALLY stop paying for their groceries! This is how the one hour television show began for the company whose website is at: http://grocerypriceslash.com I thought it was very interesting and decided to check it out. I am very skeptical by nature so the first thing I did was check out the company. I contacted the Better Business Bureau and found that the company has had no complaints lodged against them, I also contacted Paypal who has verified this company. They told me that they verified the company's licenses, bank accounts and other paperwork indicating to them that the company is legitimate. Then I started asking co-workers and friends about this program and to my surprise 6 out of the 10 people that I spoke with were already using this program. They told me how pleased they were with it and how much money they had saved and are currently saving. So I decided to sign up for their sampler (which offers one of every product they carry) program on 2/2/11. On 2/10/11 I received my complete membership package and the fun began. Using their program and the free lifetime membership that it includes I went to the supermarket ready to make a killing. The cashier rang up my grocery bill and it came out to $239.87 then I presented her with the coupons I received from this program and I saved $223.38 - my final bill was only $16.49! The cashier wasn't the only one shocked. This program has changed my life!

Hope that this message finds you in good health. As you know our church is in one of the poorest parts of Alabama. I read your post about the company that helps people save money whose website is http://grocerypriceslash.com I contacted the owner of that company Michael Armstrong and told him of our situation with so many poor families struggling to eat. I asked him if there was a way he could give my church a quantity discount so we could distribute the program to our poorest parishioners. Four days ago a package arrived by Federal Express and it contained 1,500 programs and a hand written note from Mr. Armstrong stating that his company's mission has always been to help those in need. He went on to say that the quantity discount I was getting was 100% off. It didn't cost us a penny. Many families already began using this program and so many have come to me in tears thanking me for the large savings this program is giving them. It is so heartwarming to know that there are still good people in this world. I encourage your members to join this not only to support a very good man and company, but to reap the benefits of very large savings. God bless.

Amazing Program To Cut Food Costs!
Some of you may remember our former moderator Sally. She retired and moved
to
Boca Raton, FL. She asked me to say hi to her old friends and she also asked
me
to share with you the email she sent me last night. Here it is:
I am not sure what else could possibly be said about the company at
http://discounts4food.com than has already been said and seen on television
programs. However, since I have been part of this program since 1977 I believe
I
can add to the longevity of this company's programs. I must have been one of
the
first people to join this company's sampler program and the savings over the
past 34 years have been more than I ever could have prayed for! It has been
the
norm to go to the grocery store and get items from milk to medicines for pennies
on the dollar, to eat out for free or next to nothing, and to have access to
tens of thousands of items from electronics to fine jewelry at below wholesale
prices. When I signed up for this program I had no idea what the future would
bring. Then in 1991 my husband was laid off and thanks to this program we were
able to make ends meet until he found new employment. I can't imagine how many
people that witnessed my savings have joined this program through the years.

After having read so many different people who are sharing their praise and stories about the program being offered at http://savingmorethanbefore.com and decided to share my very own experience with this progam. Back in 1999 I was bringing my oldest son Andy to Gymboree. One day when we arrived there was a large group of moms gathered around a shoebox on top of a table. I still remember hearing words like WOW and Oh my God. I went right over to see what was going on. One of the moms had a shoebox full of grocery store and department store receipts. The receipts were all showing huge savings. I still remember there was another mom there with her laptop. We all took turns signing up for the sampler that very morning. Through the years this program has been far more than I could have ever hoped for. The savings on just about everything continue to be incredible!

Members, Yesterday I sent you an advisory on my account being hijacked. In
that email I included the link to the only program that I officially endorsed.
many of you contacted me telling me the link did not work and others asked
how I know of this program. I may have given you the wrong link. Here is the
coorect link of the program that I endorsed: http://savingmorethanbefore.com
I joined this program in 1992 and ever since I have been saving enormous amounts
of money on groceries and dining out. I would only endorse a program that I
have been a part of and one the has proven to me over time that it is a gem.
Again, I have not endorsed any other program other than this one Group Moderator >>>This

I couldn't wait to share this with all of you. We just got back from the supermarket we needed many items since we are having 20 people over for Memorial Day. We bought meats, snacks, salad items, bread, beverages, condiments all the usual barbeque things. Our bill rang up $ 247.79 but once again thanks to the program I have been telling you about at http://savingmorethanbefore.com we only had to pay $ 33.26 It appears that the specials this company is offering will be expiring this weekend. I wish all of you a happy and safe holiday weekend!

Hi members! Today's mission was to test this program on non-food items. As I told you last week I have been saving between 75% - 80% on all my grocery bills using the program at http://savingmorethanbefore.com Today I only bought non food items. I filled a cart with over the counter meds, sunscreens, toothpaste, listerine, ziploc baggies, shower gel, diapers, toilet paper, paper towels, fantastik, glade air freshners, laundry detergent, softners and more. In all the bill was a whopping $ 418.89 and thanks to this program I only paid $ 30.02! This program is the next best thing to finding gold in your backyard!

She wanted to know why I have only been keeping you up to date on the grocery savings from the company at http://savingmorethanbefore.com I explained to her that I haven't had time to use the restaurant program and that I would only recommend programs that I have actually used and found great such as their grocery coupon program. She said she has been using the restaurant program and her family of six have been eating at all different restaurants several times a week and saving a minimum of 60% at each meal. She asked me to share this with you.

I would never recommend any company, program or product without using it many times with great success. In fact, in the 12 years that I have been a moderator I only recommended two programs to my members. I gain nothing by recommending programs other than the satisfaction of helping my members and making myself a better moderator as a result.

As you all know I use the program at http://savingmorethanbefore.com whenever I shop for anything. Today with a little planning I mad an incredible killing. A full cart of groceries and non food items. When all was said and done my savings rang up to 106%! Yes not a typo 106%. The store owed me $ 12.97. The manager was called over since the register could not handle such savings. Of course they didn't give me any money back but I left the store without spending a penny for over $ 250.00 worth of merchandise!

Recently our moderator shared her high praise for the savings programs at http://savingmorethanbefore.com I found her posting to be very interesting. As some of you know my magazine has a feature section where we research and report on various programs every month. So I decided that we would research this program last month. We signed up as a regular consumer, we signed up for their sampler program. In 6 days from the date we placed the order, the package arrived. We immediately began using the various programs that it includes. At the supermarket, we purchased $ 177.74 worth of food and general non food items and only had to pay $ 18.83. Then we tried the restaurant program, being hungry from all that shopping, myself and three other staff members went out to eat. Using this program we ate out at a 50% savings. Finally, we purchased several items from the Online Wholesale Mall and saved between 36% - 52% off there normal prices. Overall, we found this program to be highly effective and our column indicates the same.

The following historical facts were verified. The company began on October 7, 1977. Today the company employs 267 individuals. It's programs are currently being used by 529,998 individuals throughout all 50 states. We then dispatched 6 reporters to separate regions of the USA. We had these reporters pose as ordinary individuals and each subscribe to The Sampler Program. From the date of order the timeframe for each reporter to receive the kit was between 3 days and 7 days with the average being 4 days. Each reporter was instructed to use each program of The Sampler 4 times at different stores. The tabulation of our research project concluded the following: The average savings on groceries for the 6 reporters was: 76% or $ 134.72 per order. The average savings on dining out for the 6 was 62% or $ 38.21 per dining outing. The average savings on name brand products for the 6 was 59% or $ 42.29 per item bought. Overall these figures represent substantial savings. Dear Moderator,

I have read your endorsement and seen several television shows for the company located at http://savingmorethanbefore.com but for me seeing was the only way of believing. Well that happened last week. I was at the supermarket with my sister-in-law and she was pulling everything you could imagine off the shelves. Some stuff she said she would never use but since she was getting it for free she would pick it up. I thought she was losing her mind. At checkout, her bill went from $379.94 down to only $16.33. I thought I was seeing things even the cashiers mouth dropped. She told me that has been part of this program at http://savingmorethanbefore.com for several years and that her savings keep getting larger and larger. Needless to say as soon as I got home I signed up for their sampler special and just received my full kit this morning. I can't wait to get started with these savings.

Dear Moderator,

At age 43 I have never believed in coupons, rebates or any other savings schemes. To be honest I felt they were a waste of time and not worth the effort. However, over the past two years grocery prices have been steadily climbing and nowadays just getting a few small items at the store costs you a minimum of 50 bucks. I knew I had to do something and it was at that time that I read your glowing recommendation of the programs at http://savingmorethanbefore.com I investigated the program and decided to join their sampler program. It was just as you said incredibly large savings. In fact, it was like shopping and paying the prices that we paid in the 1970's! I am so thrilled with this program. Huge Help For Soaring Grocery Bills!
This was such an unexpected source of relief I am still crying whenever I think about it. My husband was recently laid off and needless to say that threw us into an immediate financial crisis. Here's where I unexpectedly found hope. Last Thursday I was walking to my car after finding out about my husband being laid off. I couldn't help but sob. A woman in the lot stopped me and asked if everything was okay. Not to burden anyone, I told her about my husband being laid off and left it at that. With that she reached in her pocket book and handed me a booklet and insisted that I take it. She told me that someone gave it to her when she was in financial
trouble. She went on to say that she is no longer financially burdened and she wants to help me. With that she left and disappeared into the large lot. I got home and decided to try this program and sure enough, I was able to save $ 68.01 and only had to pay $12.20 for $80.21 worth of groceries for only $ 18.36! She must have been an angel. I am crying as I type this. This program is being offered at http://savingmorethanbefore.com I don't know what I would have done if I didn't meet that wonderful lady!

Our group owner, Katie Holmes, has asked me to share the following email that she received last night:
34 years ago, I was one of the first people to sign up for a savings program (listed below). Despite many people telling me not to because the company was brand new and the concept seemed to good to be true, I didn't listen and signed up and I am so glad I did! The savings were and for 34 years have been outstanding. What I like most about this company is that they seem to always be researching new programs to save us more money. Shortly after the coupon book they released a Kodak film developing and free film program, a few years later they released an online wholesale gift mall and as seen on TV one stop store for all the items seen on TV infomercials and most recently they released the restaurant gift certificate program. I am quite happy to say that I joined everything that they released and each program has proven to save me substantial money. I only wish I had tracked my total savings over the years it must be at least one hundred thousand dollars! I thought I would share with you my first hand experiences with this company, here is a copy of the post I read originally:
Copy of Post:
As amazing as it may sound many people do not realize how easy it is to LEGALLY stop paying for their groceries! This is how the one hour television show began for the company whose website is at: http://savingmorethanbefore.com I thought it was very interesting and decided to check it out. I am very skeptical by nature so the first thing I did was check out the company. I contacted the Better Business Bureau and found that the company has had no complaints lodged against them, I also contacted Paypal who has verified this company. They told me that they verified the company's licenses, bank accounts and other paperwork indicating to them that the company is legitimate. Then I started asking co-workers and friends about this program and to my surprise 6 out of the 10 people that I spoke with were already using this program. They told me how pleased they were with it and how much money they had saved and are currently saving. So I decided to sign up for their sampler special program. I received my complete membership package and the fun began. Using their program and the free lifetime membership that it includes I went to the supermarket ready to make a killing. The cashier rang up my grocery bill and it came out to $239.87 then I presented her with the coupons I received from this program and I saved $223.38 - my final bill was only $16.49! The cashier wasn't the only one shocked. This program has changed my life!

I received this email from Betty S. from Kansas City, MO :
I bring my kids to this local playgroup to meet with other moms and kids in the area. Three weeks ago the leader decided that we would have a contest to see who could make the biggest savings at the supermarket (percentage savings) The rules were pretty simple you had to purchase at least $50 worth of groceries prior to the coupon savings. Whoever had the greatest percentage savings in the three week period would win a motorized jeep (donated by a local toy store) for their child(ren). I always thought of myself as a savings guru and figured I had a great chance at winning this. In fact when I saved 63% on one of my shopping trips, I was sure that the jeep was ours! Last Friday we met and turned in our grocery receipts. I couldn't believe when Lisa turned in her receipts showing a savings of 82% I had to look at the receipt 5 times. She actually got $143.87 worth of groceries for only $15.89! She also had a pocket full of other receipts where she saved: 79%, 73%, 68% and 67%. I asked her the natural question how did you do this? She told me that she signed on to a program at: http://discounts4food.com She had saw a television show for this and thought it was worth trying out. Well like the other moms at the playgroup I couldn't wait to sign up!

I received the following email from Mary Beck who is our group founder's cousin. I received permission from her to share it with you: My cousin recently told me about the program at http://grocerypriceslash.com At her recommendation I signed up for their sampler program and I have to share the amazing results with everyone. Using this program last night for the first time, my husband and I had an overflowing cart of groceries and non food general items. In all it rang up to $338.16 but thanks to this program we only paid $32.88! We weren't the only ones shocked, the cashier's mouth dropped. It is literally about paying pennies on the dollar for everything! Mary

Ouch! Hi Karen, hope this email finds you, Roy and the kids in good health. I realize that my recommendation was based solely on the grocery program at http://grocerypriceslash.com As you already know that program is second to none. I didn't endorse their restaurant program only because I have not yet used it. As you know I only recommend products that I have tested to my group members. Now that you sent be a box full of restauarnt receipts showing the savings you made, you can bet I'll be rushing to use that program also! It was so nice hearing from you give me a call when you can!

When I began moderating groups 15 years ago, I knew that a lot of responsibility and a dose of aggravation was inevitable. I must admit that through the years the pleasure of getting to know my members has far outweighed the problems and trouble. Recently, I recommended very highly the savings programs at http://discounts4food.com
So many of you were kind enough to email and thank me for the tip and I have really enjoyed hearing how so many of you joined and are now saving a ton of money. The problem is one individual has been relentless at harassing me since I made my recommendation. She accuses me of promoting a scam and making money off of it. For those of you who know me well, you know I would never recommend any program that I haven't personally used and found to be honest and trustworthy of its claims. Furthermore, there is no way for me to make a single cent in promoting this program. Anyone that goes to this website and clicks on the Earn Cash
link will see that I couldn't make a cent by recommeding this. Finally, I received a private email from an individual that knows this person harassing me, and they told me that she owns a company that sells a similar product to the one that I recommended. I finally had no choice and banned her and reported her to the police.

Every month our publication receives dozens of unsolicited samples. The companies hope to receive an article on their product. In reality none of the unsolicited products are ever reviewed. This month however, one caught my eye and it caught my eye because I had read about a dozen separate recommendations from different people for this program. The product that is offered at
http://discounts4food.com
turns out to be a very special product. My curiosity forced me to test the pr duct to see if the savings are as great as everyone is claiming. My results were more than impressive. I purchased $ 179.97 worth of groceries and only paid $ 19.53 for them. I am recommending this program very highly!

I never realized how much money is being thrown out at the grocery store everyday of the year. My best friend who is a consumer advocate investigative reporter for WESR TV, told me that anyone who pays the posted price at the grocery store is crazy and that they are paying 30% - 50% more than they have to. She went on to say it is like being offered a turkey sandwich for $ 4.00 and instead you pay $ 8.00 for it. She said the reason people continue to overpay is because they do not realize that they have the option of paying less. She told me to join this program at http://savingmorethanbefore.com and that this program unleashes the loopholes needed to pay much less. Sure enough, when I used this program I saved 68% on my entire grocery bill. If people only knew about these loopholes they could save a fortune!

I have read so many recommendations and counters on the savings programs at http://savingmorethanbefore.com that my head is spinning! Let me give you some inside information on this program. In March of 1981 my husband Ralph was hired by this company and worked as a customer service rep. In August 1992 he was promoted to Senior Operations Manager at this company's fulfillment center. He retired in 2006. The company was a great place to work and their volume of sales is so high that they operate a separate 12,000 square foot facility dedicated to fulfilling orders. But what really matters the most is the quality and effectiveness of their products. We began using their savings system back in 1981 and the extraordinary savings on food, dining out, general merchandise, non food items and on and on has been a financial lifesaver! Prior to that time we tried every savings system on the market as you can imagine many were worthless and some were very good, but I never found anything that comes close to the savings you get with this program. Through the years everyone I know from family to casual friends have joined this program to reap its savings rewards. I just felt I had to share my own personal inside look with you.

As you are aware I have made a couple of recommendations about the programs at http://nameurownprice.com I have received dozens of emails asking me if I have tried this program. Of course I have, in fact I am a very skeptical person so before I signed up I checked this company out every possible way including the BBB, the company's local licensing agency, Paypal their credit card processor and their local Consumer Affairs agency. Once I verified all their information and found no claims or complaints against them, by the way I verified that they have been in business for 32 years, I decided to join their sampler program. This took place 5 years ago, and I have been using this system 3 - 4 times a week since then. My savings results have been on average between 65% - 80% on groceries, dining out and name brand merchandise. I will never recommend anything to anyone if I am not 100% certain that it is a great opportunity! As your moderator that is my responsibility to each one of you. Group Moderator
